

Oasis Fold

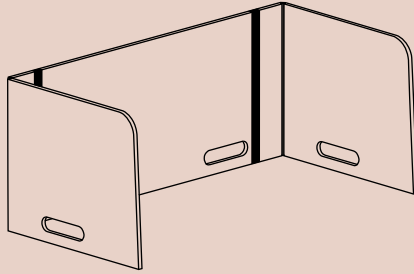

Design Studio Manade

OASIS FOLD a été spécifiquement conçu pour améliorer le confort des travailleurs nomades.

Léger et agile, il se déploie et crée une bulle de concentration pour s'isoler des bruits ambiants à la maison ou dans les open-spaces. Replié, il se transporte aisément grâce à ses poignées.

OASIS FOLD has been specifically designed to improve the day-to-day comfort for nomadic workers.

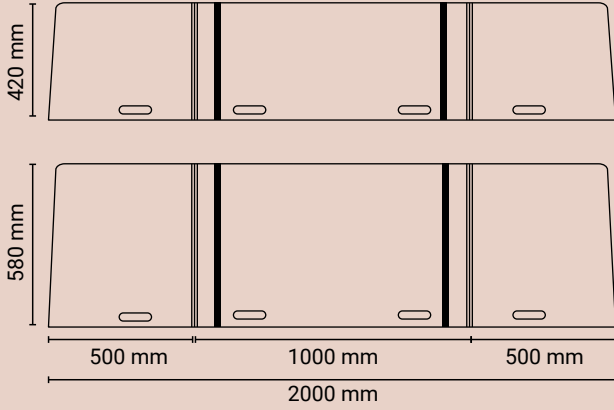

Lightweight and smart, it unfolds to create a concentration bubble to isolate oneself from the background noises at home or in open spaces. Folded, it is easy to carry thanks to its handles.
